## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, drawn to a method of selecting a shipping carrier, classified in class 705, subclass 27.
- II. Claims 10, 12 and 13-15, drawn to method of selecting a shipping carrier via a wizard, classified in class 705, subclass 27.
- III. Claims 16-40, drawn to shipping system classified in class 705, subclass 27.

Inventions I and III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method of selecting a shipping carrier can be done by hand.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the Invention II uses a shipping wizard which is read as a different function as Invention I
